*Postgraduate in AI and Data Science with hands-on internship experience in machine learning and front-end development.
Skilled in Python, SQL, and data visualization, eager to contribute and grow in the IT industry.*

EDUCATION

Alagappa University <i>Master of Science in Artificial Intelligence and Data Science</i>	Aug 2023 – Apr 2025 <i>Karaikudi</i>
Government Arts and Science College <i>Bachelor of Science in Computer Science</i>	Aug 2020 – Apr 2023 <i>Melur, Madurai</i>

EXPERIENCE

Data Science & Machine Learning Intern <i>Techvolot Software Pvt Ltd</i>	Dec 2024 – Apr 2025 <i>Coimbatore</i>
– Built a drug classification model using Scikit-learn, achieving 85% accuracy on test data. – Preprocessed 200+ patient records with Pandas, boosting performance by 15%. – Analyzed supervised learning outcomes across 5 drug types, reducing misclassification rate by 12%.	
Web Development Intern <i>Octanet Services Pvt Ltd</i>	Dec 2023 – Jan 2024 <i>Remote</i>
– Created 5+ responsive webpages using HTML, CSS, React.js, improving site speed by 20%. – Conducted usability testing with 10+ users, achieving a 95% satisfaction rate. – Applied Agile methodology, reducing revision cycles by 30%.	

PROJECTS

Drug Classification Using Machine Learning <i>Python, Streamlit</i>	Dec 2024 – Apr 2025
– Developed a web app to classify patients into 5 drug categories using key health features. – Implemented models (Random Forest, Decision Tree, KNN) with Scikit-learn, reaching 85% accuracy. – Deployed via Streamlit and GitHub for live testing.	
Portfolio Website <i>HTML, CSS, JS, Flask</i>	Feb 2024 – May 2024
– Built a responsive portfolio website to showcase projects, skills, and certifications. – Deployed on Vercel, ensuring optimized performance and global accessibility. – Live Link: hariharan-portfolio.vercel.app	
Flipkart Review Extraction & Sentiment Analysis <i>Python, Flask</i>	Jan 2023 – Apr 2023
– Scraped 3,000+ reviews using BeautifulSoup, automated data cleaning with Python. – Achieved 78% sentiment classification accuracy using Naive Bayes. – Visualized insights with WordCloud and sentiment charts.	

TECHNICAL SKILLS

Data Analysis & Tools: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL, Excel
Visualization: Streamlit, Matplotlib, Seaborn, Power BI (Beginner)
Machine Learning: Scikit-learn, EDA, Classification, Model Evaluation
Databases: MySQL, SSMS, SSIS
Programming: R, Java, HTML, CSS, JavaScript
Other Expertise: ETL Processes, Data Migration
Creative Tools: Adobe Photoshop

CERTIFICATIONS

Python for Data Science – IBM Cognitive Class
ETL Development: Data Migration, MySQL, MS SQL Server & SSIS – Udemy
Machine Learning with Python – Naan Mudhalvan
